

The NATO Smart Energy [LIBGUIDE](#) recently added several articles on Smart Energy published in the current issue of the Journal of Energy Security. These articles include [Frontline NATO: Energy, Science and the Warfighter](#) and

[Expanding the Value of Operational Energy](#)

. Other LIBGUIDE Journal of Energy Security articles can be found by clicking on the LIBGUIDE hyperlink above. The Journal itself is also listed by the Smart Energy LIBGUIDE as a

[secondary \(non military\) resource](#)

website for ready access by LIBGUIDE readers.

We encourage and welcome submissions from smart energy and operational energy professionals, policy makers, and energy efficiency private sector technology and service providers with military application.
